## CHEROKEE HEIGHTS ROAD REPAVING

### SOLUTION

*This project consists of repaving the portion of Cherokee Heights Road that was not previously repaved. Nehi Road will be paved to better serve as an alternate route for travelers between Callaway and Lynn Haven.*

### PROBLEM

This collector road services a high volume of residential traffic to and from U.S. 231 and is a connection to Tommy Smith Elementary and Merritt Brown Middle schools. Cherokee Heights Road from U.S. 231 to the intersection of Nehi Road was recently repaved as part of the Bay County's Fiscal Year 2015 Annual Resurfacing Project - Phase 2.
