

# Stormwater Improvement

## MEXICO BEACH STORMWATER IMPROVEMENT

### SOLUTION

*This project will focus on replacing and upgrading stormwater ditches move stormwater away from problem areas. It will be done through proactive and preventative maintenance.*

### PROBLEM

As Mexico Beach continues to grow, a greater emphasis has to be placed on the protection of our citizens from flooding.

Throughout Mexico Beach, many existing stormwater pipes need to be replaced or increased in size as well as on-going maintenance of our existing stormwater system and ditches.
